English

Arabic

ABOUT ME

Professional with a skill set spanning database management (SQL Server), front-end development (HTML5, CSS3, JavaScript, Bootstrap, Tailwind, React, Sass, TypeScript, ECMAScript), and .NET backend expertise (ASP.NET, LINQ, Entity Framework, MVC, API, Blazor) complemented by proficiency in C#, C, C++, and Python. With a solid foundation in OOP, algorithms, data structures, and design patterns, developing desktop applications and solving complex problems. Experienced in project management, I bring a proactive approach to delivering high-quality solutions while ensuring effective collaboration and timely delivery.
